

## RESEARCH AWARDS

### Teacher Scholar Award

**Srinivasan Srivilliputhur**  
Materials Science and Engineering

Dr. Srinivasan Srivilliputhur joined UNT's faculty in 2008 after a 10-year career as a research scientist at the Los Alamos National Laboratory. His expertise is in computational materials science and has mentored many award-winning student research. Dr. Srivilliputhur is a recipient of the National Science Foundation's CAREER Award and is an Editor of the journal Materials Research Letters. In 2015, he was invited to the prestigious Frontiers of Engineering Education Workshop organized by the US National Academy of Engineering (NAE) to present his innovative approach of harnessing 3D printing to help students visualize complex crystals. Attendance to this workshop was by invitation only, and required a nomination by an NAE member followed by selection by a NAE panel.
