UNT Majors Activity
Explore Your Options & Confirm Your Major Choice

It’s always good to know what your options are. Take the time to read through each of these majors offered at UNT and draw a line through the majors that do not interest you. If you are not sure what a particular major is, skip it and keep it as an option. At the end, research the majors you have not crossed off.

Resources for exploration include faculty and full time academic counselors/advisors in each college and school, as well as:

**Undergraduate Catalog** - [http://catalog.unt.edu/](http://catalog.unt.edu/) lists the courses and requirements for each major. First, find the "Course descriptions" link located on the catalog menu and read the descriptions for each course under the majors you’ve listed above. This will give you a “big-picture” idea of what this major is about. Then, go to the "Majors, minors, certificates" link and find out more detailed information about specific requirements for the majors you’re researching. If you like what you read, keep it on your list; if you don’t, omit it as an option.

**Career Center** - [https://careercenter.unt.edu/students/majors](https://careercenter.unt.edu/students/majors) hosts “What can I do with a Major in...” where you may browse occupations often sought out by certain UNT majors. This information can also be obtained through ([http://online.onetcenter.org/](http://online.onetcenter.org/))

**UNT Department Websites** – give valuable information on major(s), enrichment opportunities and career paths within the discipline.
