

# Five factors of a meaningful learning environment

Sarah A. Evans  
Assistant Professor  
Information Science

# Sarah's 5 R's of Teaching (That have actually worked!)

- + Relational
- + Respectful
- + Real
- + Reflective
- + Responsive

# Relational

- Be clear on who you are
- Be honest about expectations
- Create openings
- Be honest about the present moment

## Why This Course

INFO 5415 – Graphic Novels and Comics  
Module – Introduction to Sequential Art

FunkoPop Chewie and Dr. Sarah

# Respectful

- Be curious
- Position their expertise
- Invite connections
- Teach the person in front of you

# Real

Concepts in context

Real-world impacts

Tell them “why”

## Patron Collection with Program or Curriculum

✓ Published

✎ Edit

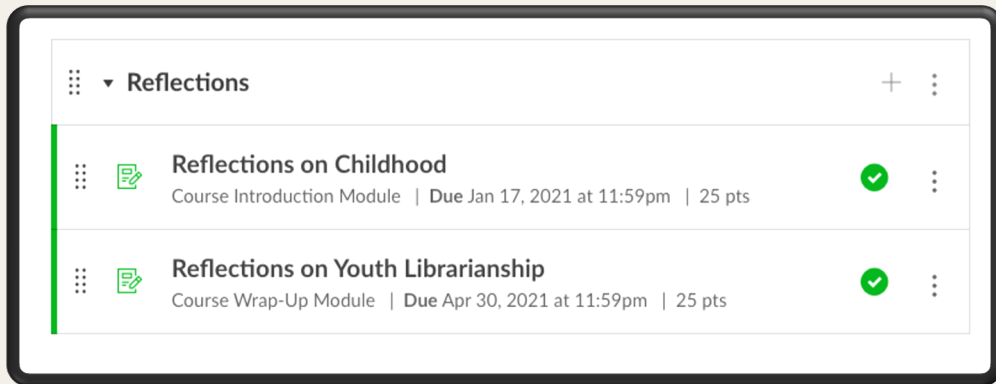

**Purpose:** Giving patrons access to materials is what librarianship is all about. In order to have something to give, you need to get the materials! This assignment offers you experience selecting materials that meet the needs of users and stays within a limited budget. And once you have the materials, you need to connect people with those materials. One way we do that is by having activities related to, or interacting with, part of the collection. This assignment also offers experience planning a program or curriculum to meet a need or interest in your community. For examples created by previous students, visit the [Patron Collection with Program or Curriculum Examples](#) page.

# Reflective

- Step back (because you can)
- Meta-moments
- Admit mistakes
- What's changed?

# Responsive

- Mix up feedback sources
- It's not all about you
- Consider the purpose of assignment
- Bend so you don't break
